**Indicators Used**

<b>INDICATOR</b>	<b>DESCRIPTION AND HOW IT WAS CALCULATED</b>
4 Year Master Graduation Rate	First-time graduate students who enrolled in the MBA program in Fall 2014 and Spring 2015 were compiled into a cohort and tracked through Summer 2018 to determine a four year graduation rate. The rate was calculated by dividing the number of students who graduated with an MBA through Summer 2018 by the number of students in the initial cohort.

FTFT Degree-Seeking Retention Rate	IPEDS Methodology – First-time, full-time degree-seeking students enrolled in the respective program for the Fall 2016 semester are entered in the cohort and, then, tracked to determine if they returned to the institution the following Fall semester. The return number is divided by the entry number to attain the retention rate.
